By : BioVoice News Desk - February 26, 2016

NEW DELHI: DATRI blood stem cell donors registry will be conducting a donor drive at Gurgaon to find a life-saving match for two year old Mira suffering from AML (Acute Myeloid Leukemia), a type of blood cancer.

Mira has been diagnosed with AML and is looking for a blood stem cell donor of her genetic type, who can save her life. The probability of finding a matched donor for Indians is very low and hence it is required to have a large donor base to find the right match. If you are between the ages of 18 and 50, and are healthy, you can be a potential donor.

Venue for donor drive: RT 113 Royalton Towers (Inside Princeton Estate), DLF Phase 5, Gurgaon

When: On 28th Feb 2016, From 10 AM to 3:00 PM

Phone: +919871622655

If you cannot attend the drive, but would still like to register, please visit www.datriworld.org to request for a do-it-yourself kit.

Founded in 2009, DATRI's vision is to help every patient seeking a blood stem cell donor find a healthy, willing, genetically matched donor. DATRI has more than 116,470 registered voluntary donors, has facilitated 144 Blood Stem Cell donations, works with 11 collection centers and has serviced 27 Transplant Centers including 6 hospitals abroad. This not-for-profit organization is associated with Bone Marrow Donors Worldwide (BMDW) and is a member of World Marrow Donor Association (WMDA).
