**Bengaluru:** The Sami-Sabinsa Group, which manufactures and markets phytonutrients and standardized herbal extracts, specialty fine chemicals, and organic intermediates, has sent medicines (Curcumin C3 Complex) to the flood-wracked state of Kerala to assist in its relief efforts.

The medicines will be distributed by Dr Muhammed Majeed, Founder and Chairman, Sami-Sabinsa Group at a Relief Camp in Mattannur, Kannur District of Kerala. This in addition to a contribution of Rs 5.5 crores made by Dr Majeed to the Kerala Chief Minister's Distress Relief Fund along with adopting one village devastated in the flood.

**(L-R) Kerala CM, Mr Pinarayi Vijayan with Sami Sabsina Founder, Dr Muhammed Majeed.**

**Founded by Dr Muhammed Majeed, an internationally acclaimed scientist and entrepreneur in the area of alternative medicine, Sami Labs is a research-oriented Indian multinational health science company, and a leading producer of nutraceuticals, cosmeceuticals, standardized herbal extracts, fine chemicals, specialty chemicals and probiotics. The Government of India honored Sami Labs Limited with the National Award for Quality Products (Basic Drugs) in the year 1994 and the Prestigious DSIR award in the year 2002.**

**The company is endowed with independent research divisions including Natural drugs, Phytochemistry, Synthetic Chemistry, Tissue Culture, Biotechnology, Analytical R&D, Biological Research, Microbiology, and Formulations R&D, all of which coordinate in a synergistic work model to create products meeting international standards.**
